COMPANY INTRODUCTION
公司介绍

江顺精密机械装备科技江阴有限公司隶属于江苏江顺精密科技集团（股票代码：001400），成立于 2007 年，总部位于江苏省江阴市。公司专注于为轨道交通设备、风力发电设备、船舶动力设备、工程机械设备以及传动机械设备等关键领域提供高质量、全方位的精密机械装备整体解决方案。

公司拥有进口卧式加工中心、大型进口数控龙门中心、大型数控镗铣床、数控车台、数控立式车床、高精度内外圆磨床、慢走丝切割机等各类先进加工设备百余台，并配备完善而严格的管理体系及各类专业的高精密检测设备。

公司始终秉持“客户导向、持续创新、快速响应”的服务理念，不断追求卓越。凭借精湛的技术、可靠的品质以及优质的服务，公司产品成功出口德国、意大利、西班牙、加拿大、奥地利、泰国、巴基斯坦等全球多个国家和地区，在国际市场上赢得了广泛的赞誉，深受国内外客户的信赖与认可。

2025 年，公司设立天长生产基地，进一步推动产能扩大，持续提升市场竞争力。

Giansun Precision Machinery Equipment Technology Jiangyin Co., Ltd., a subsidiary of Jiangsu Giansun Precision Technology Group (stock code: 001400), was established in 2007 and is headquartered in Jiangyin City, Jiangsu Province. The company specializes in providing high-quality, comprehensive precision machinery equipment solutions for key sectors such as rail transit equipment, wind power equipment, marine power equipment, construction equipment, and transmission machinery equipment.

The company possesses over a hundred advanced processing equipments, including imported horizontal machining centers, large-scale imported CNC gantry centers, large-scale CNC boring and milling machines, CNC lathes, CNC vertical lathes, high-precision internal and external grinders, and slow-moving wire cutting machines. Additionally, it is equipped with a comprehensive and rigorous management system as well as various professional high-precision testing equipment.

The company has always adhered to the service philosophy of "customer orientation, continuous innovation, and quick response," continuously striving for excellence. Leveraging its superb technology, reliable quality, and excellent service, the company's products have been successfully exported to multiple countries and regions around the world, including Germany, Italy, Spain, Canada, Austria, Thailand, Pakistan, and more. These products have earned widespread acclaim in the international market and have been deeply trusted and recognized by customers both domestically and internationally.

In 2025, the company established a production base in Tianchang to further expand its production capacity and continuously enhance its market competitiveness.

DEVELOPMENT HISTORY
发展历程

2007
·成立江顺精密机械零部件有限公司
·进入轨道交通业务领域

· Jiangyin Giansun Precision Components Co., Ltd established
· Entered rail transit industry

2008
·ERP管理系统上线
·京沪CRH动车组牵引电机轴实现批量交付
·成功开拓风电市场业务

· ERP management system go online
· Beijing-Shanghai CRH traction motor shafts achieved batch delivery
· Entered wind power industry

2009
·投资亿元的车间实现投产
·通过IRIS国际轨交体系认证
·CRH380牵引电机轴批量交付

· Invested 100 million yuan in a new production workshop
· Passed IRIS (International Railway Industry Standard) certification
· CRH380 traction motor shafts achieved batch delivery

2012
·公司承接的高铁项目及城铁项目突破10个城市
·外贸部成立

· Undertook high-speed rail and urban railway projects in more than 10 cities
· Foreign Trade Department estab-lished

2014
·首次参加德国柏林轨交展 INNOTRANS
·完成ERP系统升级
·实现3兆瓦风电轴批量交付

· Attended the Berlin INNOTRANS Rail transit exhibition
· ERP system upgrade
· 3MW wind power shafts achieved batch delivery

2016
·承接国内外轨交项目突破20个城市
·复兴号标准动车组零件试制并实现批量交付
·时速600公里高铁实验车型电机轴唯一供方
·通过EN15085国际焊接体系认证

· Undertook high-speed rail and urban railway projects in more than 20 cities
· Complete the trial production of parts for the 600km/h Fuxing standard high-speed train and achieve batch delivery
· The only supplier for high-speed train experimental model's motor shafts
· Passed EN15085 international welding system certification

2017
·正式更名江顺精密机械装备科技江阴有限公司

· Officially changed name to Giansun Precision Machinery Equipment Technology Jiangyin Co., Ltd

2018
·复兴号E51领导专列项目
·大金额投资设备，扩大布局风电轴产线，风电轴产能首次突破年2000根

· Successfully completed Fuxing E51 special train project
· A large amount of investment in equipment, and expand wind power shafts production line. Yearly production of wind power shaft exceeded 2,000 pieces

2019
·更新投资小型轴线及检测设备
·ERP第三次升级完成，实现质量、生产、营销、财务等全方位系统性管理
·产值首次突破亿元

· Invested in small shafts production line and testing equipment
· Completed 3rd upgrade of ERP system, and achieved a systematic management of quality, production, marketing, and finance
· The output value exceeded 100 million RMB

2020
·调整车间布局，实现小轴产线、中轴产线、大轴产线、焊接类产线等车间模块化产线管理

· Achieved the Modular management of the workshop, seperate areas for processing small/ medium/ large shafts , welding products, etc

2023
·大型设备投资，满足十吨内轴类法兰类产品内部加工需求
·租借厂房5000平方，扩大焊接类产品产能规模

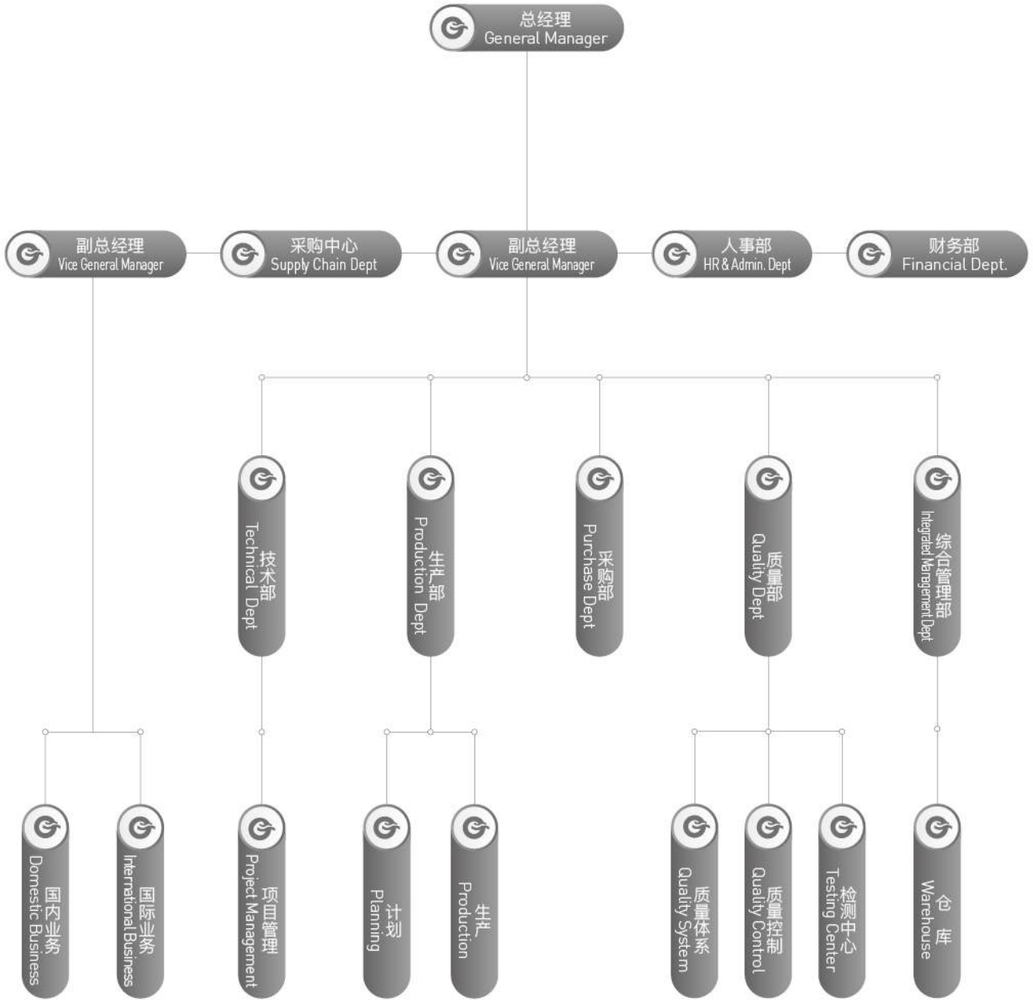

· Invested in large equipment to meet the internal processing needs of 10 tons of shaft flange products
· Welding workshop expand 5,000 ㎡ and increase welding products capacity

2025
·集团成功在深交所主板上市，
股票简称：江顺科技，
股票代码：001400
·成立天长江顺精密机械科技有限公司，推动产能进一步扩大

· The group has successfully listed on the main board of the Shenzhen Stock Exchange, with the stock abbreviation: Giansun Technology, and the stock code: 001400
· Established Tianchang Giansun Precision Machinery Technology Co., Ltd. to further expand production capacity

CORPORATE CULTURE
企业文化

客户导向
以客户为中心，以客户的需求为关注焦点并给与积极的快速响应。以为客户增加价值为出发点，提供专业化的服务；与客户建立长期、稳固的合作关系。

持续创新
持续优化产品工艺结构，保持与客户的良好沟通；根据客户的要求，不断探索新技术、新领域，适时而变，推陈出新，拓展新市场；提升品牌影响力，为公司持续发展提供新动力。

快速响应
快速应对市场需求变化，缩短产品开发及供货周期，降低与客户间的沟通成本及项目开发失败成本，从而提高客户的体验感，巩固彼此间的互信互利的合作关系。

Customer Orientation
Giansun adheres to center on customers, focuses on customer demands and responses to customer needs quickly and actively. Starting with increasing value for customers,Giansun will continuously innovate and establish long-term and solid cooperative relationship with customers.

Continuously Innovation
Giansun will continuously optimize product technology structure, and maintain good communication with customers. According to customer requirements, constantly explore new technologies and areas, change with the times, expand new markets. Giansun keeps enhancing brand influence and providing new impetus for the company sustainable development.

Quick Response
Giansun is committed to rapid response to market changes , shortening product development and supply cycle, reducing communication costs with customers and project development failure costs, thereby enhancing the customer's sense of experience, and consolidating mutual trust and benefit cooperative relationships.

本焊接系统能实现焊接部件的自动焊接。通过机器人与焊接电源的实时通讯，根据不同的焊接位置采用不同的工艺参数，取得优质焊缝。本系统有变位器和工作站双工位。工作站可装夹直径700x4000物料，可连续焊接4米长焊缝。变位器回转直径1m，可焊接直径1m的环形焊缝。发那科M-20IA系列机器人控制柜，集中了发那科各种最先进的新一代机器人控制器，具有性能高，响应快，安全性能强等特点。

This welding system can achieve automatic welding of welded components. By real-time communication between robots and welding power sources, different process parameters are adopted according to different welding positions to achieve high-quality welds. The system features a dual-station setup with a welding positioner and a work station. The work station can clamp workpieces 700x4000 mm, capable of continuously welding 4-meter-long seams. The positioner has a swing diameter of 1 meter and can weld circular seams on components with a diameter of 1 meter.The Fanuc M-20IA series robot control cabinet integrates various state-of-the-art next-generation robot controllers from Fanuc, featuring high performance, fast response, and strong safety performance.

QUALITY ASSURANCE

质量保证

公司通过了 ISO9001、ISO/TS22163(IRIS)、EN15085-2-CL1、ISO3834-2 等质量管理体系认证。建立“以顾客为导向、满足顾客要求、超越顾客期望”的企业质量文化。贯彻预防为主的质量管理理念，强化前期质量策划和过程质量。

The company has passed quality system certificates of ISO 9001, ISO/TS22163(IRIS), EN15085-2-CL1, IS03834-2. Builds the enterprise quality culture of customer oriented, customer requirement met and customer expectation surpassed. Implements the quality management concept of Prevention First, and reinforces the quality planning in the early stage and quality control in the process.
